

Classbook Storyboard

Pages 1-66

Getting started: Make planning part of the fun, and use this storyboard to outline your book publishing project. Write each student's name on the line under his or her 2-page spread, where illustrations will appear on the left and writing on the right. Remember: Your book may have up to 66 pages, which is enough for 33 students, but you don't have to use them all. Let the fun begin!
